Christmas Hamper Appeal 2019

Dear friends,

Consistent with our practice for several years, this agency will be packing and distributing Christmas hampers for families living in the greater Gawler and Barossa area. Last year we provided approximately 400 hampers for families in need. Each hamper included about \$100 worth of groceries, and toys for children up to 12 years of age. The value of toys varied, but all were new and would have added to the enjoyment experienced by each recipient, some of whom would rarely receive anything new.

We anticipate that several children from local community groups and congregations will be managing the packaging of hampers this year and will operate under the direction of some of our staff.

While all toys are donated, the bulk of the groceries have to be purchased locally, and each year we receive donations from the public to raise the funds necessary to cover all costs.

We invite you to consider assisting us to supply and distribute Christmas Hampers to our most vulnerable community members this year. Personal donations over \$2 can be claimed as taxation deductions.

Should you be willing to help, we would be glad to receive such donations as a way of contributing to those families whose lives would be made more enjoyable at such an appropriate time of the year.

Yours faithfully,

Sheena Tapping

Support Manager/Financial Counsellor
