

Greetings

There was no June meeting or Guest Speaker. Hopefully the COVID rules restricting the meeting of 40 or so people in a Hall will be better for us before 2nd July, when we look forward to Dr Rupert Thorne addressing us on the history of Hutchinson Hospital.
You will get an email if our normal meeting can resume.

Allen has just loaded many articles on "Gawler Thematic History" [go to gawlerhistory.com and click on the "Things" button and there are the articles with much interesting information]. A great overview of Gawler's development within the many different subject matters. We thank Town of Gawler for their agreement that this material can be visible on our website.

Our gawlerhistory.com has now clocked up over 8.3 Million hits. This is most pleasing. There are those with the appropriate qualifications and experience who regard our website as being the best history website for any country town in Australia.

You or your friends may have old Video tapes or films. If they are likely to be chucked out on your passing, you can have the material on them put onto a USB. [My 90 or so old Videos are now contained on 10 USB's and it is great to be able the content to be viewed on the big TV Screen.] If you want more info re USB conversion please let us know. When you see that the content contains Gawler scenes or events, we would love a call as it may be very suitable material to load it onto the website.

Question of the Month – Gawler has Whitelaw Terrace and Whitelaw Creek in Clonlea Park, but do you know who "Whitelaw" was? A bit of a mystery. Please let me know if you know.

Regards

Brian Thom
